

Divide/Line C520 splitters are designed and manufactured accordingly to the main principles of Camoga products:

Quality of materials and of manufactured components allow to achieve and keep high performances for a long time.

SIMPLICITY of use and maintenance to limit the unproductive stops and the operation expenses.

Therefore they are very RELIABLE AND FLEXIBLE machines, because without restriction of quality, they allow high productivity with a perfect adaptation for the different working methods and the different features of all kind of materials.

The wide range of models available meet all requirements, from the small firm to the big industry.

## Features
